Cuts Down Deneen Lead.

Senator McCormick has been able to cut away a substantial part of that Deneen majority. As this edition of The Tribune goes to press, Deneen's lead is in the neighborhood of '4,400

Comick have collected figures by telephone and telegraph in the thirty-six hours since the polis closed, and they believe that complete figures will wipe out the majority for Deneen. Perhaps that view is largely based upon the showing of Senator McCormick in twenty-three downstate counties which have more than one-half of the Republican organization politics in Cook county is all at sixes and sevens as a result of Tuesday's primary.

Still staggering from the shock of a defeat at vital points on the state showing of Senator McCormick in ticket and the smashing of the local slate by three Deneen entries, the leaders in control of the regular organization refused even to consider among county.

county.

In these counties it is claimed that the senator will show a substantial margin over his opponent, and these twenty-three counties count as much that their control of the regular county.

McCormick is thought to be a slowing up in the Deneen pace downstate.

The former governor's average advantage per precinct has been lowered in the latest returns received.

But there is another feature which favors Gov. Deneen. At the hour this edition of The Tribune went to press, 664 precincts were missing. Many of these precincts are in counties which have not supplied any returns at all. Of the remaining precincts at all. Of the remaining precincts at all of the received, and 175 precincts are in counties which favor Deneen in the returns received, and 175 precincts are in counties favoring Mc cormick.

STATE BOARD MAY DECIDE

In the event that the race between mited States Senator Medill McCor-nick and ex-Gov. Charles S. Deneen ontinues to be so close that the unofficial returns leave the result in
doubt, considerable interest is expected to center around the verdict of the

Heavy, Thick, Silky, Unusual!

They are almost an inch thick and yet as fine and as shimmering as silk. Most patterns are of the typical "Temple" type, significant in themselves of exceptional worth. They are colored with all-vegetable dyes in tones both unusual and beautiful. The designs are "carved," which means that they are outlined by hand clipping so as to emphasize the de-

Why Hurry?

Time is, as a rule, best employed when devoted to calm, unhurried effort. Constant hurry is a sign of inefficiency.

Watch people rushing pell-mell through the Loop this noon. Most of them squander the thing they seek to save.

Thousands of them regularly hurry their luncheons as a matter of habit and without sufficient reason. Soon or late they pay, in physical and mental vigor, a heavy price for their heedlessness

The sensible procedure is to take ample time for luncheon every day (forgetting all haste) and to partake of a warm luncheon of well prepared, substantial food. Avoid the sort of food that is permitted, in many substitutes for good restaurants, to remain indefinitely on steam tables.

At Henrici's you will find luncheon menus of such substantial, wholesome food as every normal person in business life requires to supply the demands of mental and physical activity.

Why not Henrici's today for luncheon?, _uller has the

WHO SHALL FINANCE CAMPAIGNS?

Senator Borah, speaking before a church and ence in Washington, very properly assails the practice of soliciting and accepting huge campaign ested in the influencing of legislation or adminis tration to their selfish purposés. Such contribu ions unquestionably carry at least a suggestion of corruption, and thereby tend to reduce respec for the government and party in power. That is a liability to the entire nation.

But the senator fails to emphasize sufficiently the alternatives to such practices. They are several. One is the reduction of campaign funds to a minimum such as is ordinarily provided by small individual contributors. That means no imprope influence of money upon the successful candidate characters. It means inability to distribute campaign literature discussing the issues so that the intelligent voter may have the information upon which to make decision. It means inability to circulate advertisements to that same end. It have an obnexious peighbor removed? It is a state of war against organized society and should be met by appropriate measures, recognized by English law and

or, in other words, until Chicago is made safe for democracy, safe for our women and children. It might take a couple of weeks. It cannot be doubted that an experienced officer who has seen service overseas, with a hundred picked veterans, would clean up the situation here, without any overcrowding of the jails, in a fortnight.

Bandits and gunmen, political and pro essional, would suffer, and mealyouthed sticklers for the constitution might rage, but property would be safe, women and children would walk in safety and peaceable, law-abiding citizens would rejoice. In a word, if we are not able to protect ourselves by the civil law let us resort to the military, under safety guards duly provided by our ancient same and controls.

Chicago, April 4.-It seems to me, alhough I am but a young voter, that conditions in this country are fast ap-proaching a serious crisis when Henry Ford's Muscle Shoals offer is passed by the house of representatives. Ford's offer for Muscle Shoals should

YOUR FAUORITE FEET

include yours and hers-or, yours and his.

LMOST EVERY ONE is interested in at least four feet. Some of us, paternally or otherwise, are concerned with more, but no matter.

FOOTWEAR, more than most other items of woman's apparel, may be said to be an index, not only to one's personal pride, but also to one's shopping skill. Footwear either "is" or "is not," and

nothing can change it.

MOST OF WOMAN'S garb, such as furs, gowns, hats (to an extent), and perhaps other things, can be recast to accord with the kaleidoscope of fashion, or adapted to the personality of the wearer. Not so with her footwear, "make-overs" are impossible. She must choose rightly at first, and the choice stands for the life of the shoes.

MAN'S GARB is neither as exacting in detail or as fluent in its adaptability to alteration. But his shoes are just as "set," when once decided upon. So he, too, does well to choose rightly at first.

IN THIS LIGHT the question of how long shoes should last becomes purely relative

HOW LONG do you wish them to last? It is very much yours to determine how many times you wish to wear them—or how many years.

THERE ARE O-G shoes so sturdy, albeit so elegant in their strength, that you tire of them before you can wear them out.

AND THERE ARE O-G shoes so deliciously ethereal in their fairy loveliness that, like an orchid, they are not asked to much more than survive one wonderful night.

IF YOU ARE A MAN, you know well enough how easy O-G shoes have made it for you—so, if you want ber feet to excel all others in beauty, encourage her to go and get exactly the O-Gs that "belong" to her. If O-G shoes are the usual thing in her set, suggest that she especially enquire for some of those limited O-G creations direct from Paris, with our own European mark upon them. Or, design a style yourself, and O-G will execute it with the highest art, at the lowest consistent price. (Why not try it?—it has been done.)

AT ANY RATE, make sure that all four of your favorite feet are shod with distinction—and with great money's-worth. Perhaps we can help. May we try?

U. S. EMIGRANTS TO "REMITTERS"

Passports Denied to All Would-Be Americans.

Because congress is about to vote on immigration legislation. The Tribune asked its foreign correspondents to describe immigration problems and conditions in the various countries of Europe. Below is the first of a series of dispatches which will appear in The Tribune.

BY FLOYD GIBBONS.
[Chicago Tribune Foreign News Service.]

NAPLES, Italy, April 9.—American politicians with strong Italian backing are finding themselves up against a Tartar in the person of Benito Mussolini, premier of the Facisti government. The old game of deluging American consuls with official requests for emigration preferences does not work any longer in Italy under the new regime.

gration preferences does not work any longer in Italy under the new régime. American consuls as a matter of fact have very little to say in the matter, because Italian emigrants are hand picked by the Italian government before they can even apply for an American visa to their passports.

Mussolini differs with American politicians on one serious point—the exact kind of Italian emigrants. The American politicians on one serious point—the exact kind of Italian emigrants.

ticians on one serious point—the exact kind of Italian emigrants. The American politician wants the class of immigrants who become naturalized citizens of the United States, make their homes in America, and swell the votes for the political machines in the Italian sections of cities. Mussolini wants Italian emigrants who remain Italian citizens and send back to the homeland the residue of their efforts to enrich the Italian coffers, and eventually return to Italy with their American made fortunes.

500,000 Ready for America.

There are 500.000 Italians ready and eager to leave their homes in Italy and seek their fortune in America annually. The entire American immigration quota from that country is only 40,000, and only that number can realize their dream. That 40,000 first selected by the Italian government go not as emigrants, but as "remittera." Less than one in ten of the women who seek to go to America are ac-

epted. The reason for this is that omen are not "remitters." Another eason is that if they are held at home they attract "remittances" from their eason folks in America.

The Italian immigration officials examine prospective emigrants with strict regard to the American regulations on physical, mental, and moral requirements, but after this consideration their selection is based on their emittance possibilities as regards they. Married men with families are considered the best "remitters." Next come young men with dependent parents in Italy. Thirdly are placed artent swains who can prove there is a girl whom they want to return to Italy and wed. Homes and families are disjoint wed.

Italy annually.

"Remitters" Swell Trade Balance.

Italy annually imports 2,000,000,000
lire more than she exports. Muscolini
has almost succeeded in wiping out
this unfavorable trade balance by recelpts from remittances and tourists
In 1922 Italy received the following re-

Through private banks, 700,000,00 lire; through the Bank of Naples, 526, 000,000 lire; through postoffice money orders, 350,000,000 lire; through registered letters, 300,000,000; through redistance of turning emigrants 350,000,000 lire 613,000,000 lire deposited in Italian post tal savings banks by Italian emigrant outside of Italy. The total amount to almost 3,000,000,000 lire, or more than \$200,000,000. Haif of this amount came from America.

came from America.

More than 500,000 foreign tourists visited Italy last year. The largest single group was American with English and French a close second. According to Prof. Alfredo Nicelow of the University of Naples, these tourists left 2,000,000,000 lire in Italy as a result of their visit.

A CAR OF INSPIRING POWER

Apart from the outstanding beauty, the rare luxuriousness and the incomparable riding qualities of this smart Brougham-Sedan you will find it to be a car of ansurpassable mechanical excellence.

For example, its acceleration is so active and surprising and yet so smooth and sure that it brings a new and greater joy to motoring pleasure. Its six-cylinder power-flow is rich in volume, yet so soft and silent that you never cease to be amazed and delighted at its dependable performance.

You may have it with balloon tires and hydraulic four-wheel brakes, if you desire. See it and other Kissel body types today.

RAIN, PUBLICITY KEEP POPE FROM K. C. DEDICATION

Pius Decides Not to ings and the Leave Vatican.

ROME, April 9 .- Great disappointment was felt in Rome tonight because of the nonappearance of Pope Pius XI. at the dedication of the Knights of Columbus welfare building. It was at first believed that a rainstorm at the moment scheduled for the pontiff's short foot journey from the door of St. Peter's sacristy to the new building caused his doctors to advise against his taking any risk, as he has been suffering from a slight cold. It is admitted, unofficially, however, that the enormous amount of publicity given the pope's proposed visit alarmed the vatican entourage, who foresaw that great political significance would be given to the action, which the pontiff merely intended as a special mark of friendliness to the Knights of Columbus representatives and United States Catholics.

Nickelnurser has recently installed a hot water heater in his home. A "new rig" that cost just about half what his neighbors paid for their Humphrey Automatic Storage Systems. He is keeping a pretty close check on the gas bills these days and about the end of the month is going to have the laugh on somebody.

Of course, if Mrs. Nickelnurser loses her head and uses a whole dishpanful of hot water or anything like that, she hears from Mr. Nickelnurser right away.

There's a Good Time Coming

As soon as the hot water situation gets back to normal though, Mr. Nickelnurser is going to learn some sad truths. And two or three years from now when the "new rig" is about ripe for the junk heap, his neighbors with Humphrey Heaters may lead him aside and give him some good advice.

They know new (but they are not telling him) that to get Humphrey concenience, reliability and economy you've got to buy a Humphrey and pay the fair Humphrey price. It's after you do that the real saving begins. The unusual fuel economy of Humphrey-Autom Storage Systems and the many extra years of service they insure make them better bargains than Mr. Nickelnurser's.

Three Ways To Put Frigidaire In Your Home

- 1—If you have a good ice-box in your home, Frigidaire, electric refrigeration can be put into it in a few hours.
- 2-Frigidaire mechanism can be put into any ice-box you buy.
- 3—Install a complete Frigidaire unit—in which Frigidaire mechanism is combined with our specially built cabinet.

Any of these three methods will give you the advantages of electric refrigeration at a cost usually less than what you now pay for ice.

Frigidaire will keep the food you eat at the proper low temperature, so that it comes from the re-frigerator as fresh and healthful as the day it was put in.

There is a size for your home and there is a time payment plan for those who prefer it.

Come in and find out how little it will cost to have Frigidaire in your home.

FINAL ARTICLE.

Memphis, Tenn., April 9.—[Special.]
—The Boston Red Sox boast a much improved team over that bequeather handed batting outfielder, from the flat of the fans by Harry Frazeé when he blew the works after selling out to a Columbus syndicate. This bunch of good fellows, with the advice of Bobby Quinn, did a bit of swapping during the winter months and sent into spring training under the direction of Lee Fohl, formerly manager of the St. Louis Browns, the wherewithal from which a possible championship team may be moulded during the next two or three seasons.

The improvement around second base is the Red Sox' greatest claim for added consideration in the American league this year. Dudley Lee, purchased from the Tulsa club of the Western league, is a shortstop that will bear a lot of watching, while Bill Wambsgannss, obtained from Cleveland the Good's Rand Ehmke will bear a lot of watching, while Bill Wambsgannss, obtained from Cleveland in the George Burna deal is a state of the season for the other out-field job, but Denny Williams, a fiest leafted, but Denny Williams, a fiest leafted, but Denny Williams, a fiest leafted batting outfielder, from Mobile, has shown enough stuff to the expweight, appears to be ready for the every will do the bulk of the addificult for the pending flag campaign. He stepped to the slab today to breeze through to the bulk of the labor behind the plate. He normally is a better batter than Al Walters, who went to Cleveland. Val Picinich will be the warming pan.

The pitching, according to Fohi, has looked exceptionally good this spring. Howard Ehmke, who won the eighth place Sox last year, speaks for the corps when he says he never was in better shape this early in the season. Big Bill Piercy led the team only one runner reached second base on him.

The purchase of an automobile will mean the unfolding of a new world to you. Places of scenic and historic interest can be reached in a few hours; you can take your family out into the country with its fresh air and bright sunshine; you can find a rest for strained nerves and tired body. Buy an automobile and you will never regret it; it pays dividends in health and happiness. Used in your business, it pays dividends in time saved and increased efficiency.

You have bought your automobile, and now you have added responsibilities. As a pedestrian you were concerned only with taking care of yourself on the streets. Now you are a motorist, and you have obligations toward every driver, pedestrian and yourself.

Do you know what these obligations are? They are many and are not learned in an hour.

If you do not learn them you will come to grief. Do you know who has the right-of-way?

From London

- for Young Men

HEN EASTER comes to Oxford town the sturdy young Britisher will once again set men's fashion standards for the world. Handsome, cheerful, honest-looking—traditionally

well-dressed, whether in Manor or Sporting Field—the manhood of England is bound only by style dictates that are sound.

From the time the English public school boy enters Harrow, Eton or Winchester he is well-groomed. When he reaches Oxford or Cambridge he is faultlessly attired on all occasions.

Dignity without discomfort characterizes his wearing apparel,—styles evolved through experience and careful planning, not accident. Free flowing lines, responding readily to bodily swing and stride, are certain to appeal to men of common sense and taste.

Do not think that to be comfortable you must saunter forth on Easter Day in worn clothes that any Londoner would pronounce "beastly old." Self-respect and self-assurance demand that your wardrobe be replenished at this time.

To outfit young Americans who have a liking for the unusual we have made many purchases abroad. Our importations from London have all the dash and vigor that young men desire.

For this most inspiring season of the year you can obtain English models much more reasonably priced than custom tailored clothes, and you will be garbed as authentically correct as though you were fitted by a London tailor of your own choice.

¶ \$47.50—A Tan Herringbone Cheviot Top Coat, imported from England; Silk Trimmed. Loose Fitting Slip-On Model.

Women are especially invited to view these Easter and early Spring displays—either with men or in the interests of men. We know women will appreciate the fine grades of woolens offered here, as well as the artistic styles. the young man said, again privately gritting his teeth. "What I had better do is get up that cliff there—er—find out what timber there is about, and have a look generally."

Secretly he promised himself to intercept that old ruffian, Mr. Lloyd's entrance, and give him a thorough telling off before he went down to his infernal but misled niece.

"O, I'll come with you, Mr. Mount."

"You can't. We can't possibly both go."

"Why not?"

"Because," bright thought, "some one has got to stop by this bonfire. It you don't mind, Miss Verity, you must stay where you are."

"And, please," he added anxiously, "don't go out of this creek and the me to the right."

For these were the bounds that the old ruffian had set some time ago. "Promise you won't leave this bit of beach in between until I come down again. You will promise me that, won't you?"

"I promise," she said—and it was in that voice of a child put on its bonor not to go beyond the garden gate.

"She is just a kid," the young man told himself exasperatedly as he turned id the easiest upward slant among the rocks at the foot of the cliff."

"Dashed if I'm cut out for a kid's nurse, though."

She, watching, saw the big figure in shirt and trousers swing itself lightly up between bowlders and low growing bushes; saw it cut out dark against blue, where sky met cliff line. It disappeared.

"Not even waving his hand." thought Margaret. "Never mind, quite a comfort to be alone again. What do I do now?"

Mémories of everything she had heard and read about people on desert islands went through her head. Uninterruptedly busy these people seemed. Building. Planting. Manufacturing bows and arrows. Fishing. Collecting head fruit. Bringing down birds or small deer. Curing skins in the sun-light. Instantly concocting their own civilization in their wilderness! The own civilization in their wilderness! The own civilization in their wilderness! The own civilization had been these other again.

I ought to do some work."

As a child she had been left alone often enough on the seashore. Here, and the seashore is the seashore of those days. First it was flat stone to find—then it was digging a hole in the sand to bury that heap of fish spines, which was all that there remained of their break.

That, too, was a memory of far off days when her mother had taught the enormity of throwing sandwich papers about to spoil the lovely out toors.

the enormity of throwing sandwich papers about to spoil the lovely out doors.

Now she buried débris as carefully as if she were twelve years old; she stied sund down above it, a detail of the smallest kind, yet it seemed to tide between Margaret and the utter seriousness of the situation in which, she between Margaret and the utter seriousness of the situation in which, she between Margaret and the utter seriousness of the situation in which, she between Margaret and the utter seriousness of the situation in which, she between the new found herself. Shanghaied! Shipwrecked! Make between Margaret and the utter seriousness of the situation in which, she between the twelvest of the situation in which, she between the head to the others! Without knowing where her next meal wild come from! Practically without shelter for her head! But what tick her as most extraordinary was that, though she should have been sed with misery, anxiety, suspense—though she ought to have felt like the miraculously, she didn't. The island sunwhine was ever warmer on her. The breeze toesing her hair had actually begun to fill her with the life. Incredibly but urgently the presentiment filled her: "I shall were be unhappy on this island!"

If she was destined to be not unhappy, she was presently going to be rely uncomfortable! But for the first part of the morning the sense of welly inspired her as she sped up and down the lonely beach, busy as a con the first sunshiny day. To and fro she moved: stooping, gathering its, washed off branches, any odd bits of wood. Stacking it up beside the body of seawed for damping down the fire. Now and again she fed the body of seawed for damping down the fire. Now and again she fed the between those flat, smoke blackened hearthstones; she crouched, holding bands to the heartening glow. Amy Neill, Violinist, Returns to Chicago a First Rank Artist BY EDWARD MOORE.

BY EDWARD MOORE.

Amy Neill returned to Chicago last night. She went away to Europe about two years ago, a talented and highly promising young violinist; she came back with the promise fulfilled, a mature artist, poised, easy of manner, experienced in the lore of the concert stage, and playing superbly. Orchestra hall was the place of the return.

It is a thankless operation and subject to more or less heated discussion and contradiction when one attempts

and contradiction when one attempts to classify the exact position of an artist with reference to that artist's contemporary competitors. Loneliness Moves Her to Question Some Conventions

BY DORIS BLAKE. The question of loneliness again! A roman of 35 writes to me suggesting remedy in "conditional acquaintances." As it is her suggestion, we will let her present it in her own words, and see what you think of such plan of filling that great human need for companionship.

"Recently I went to a concert at the Museum of Arts," she writes. "The place was filled; jammed, in fact. They were sitting on the floor, hanging around statues. Not all may have been lonely people, but I'll venture half of them were. At least three men, each of whom might make good com-panions, possibly even husbands, looked at me in a perfectly honest sort of way. I would like to have met each of these men, and I have no reason to in introduction to me. But that third person to introduce us being absent, each went his and her way. We shah

"CRAVENETTE PROCESS" Stamped on a Coat Will Give You a Line on the Quality of the Fabric

NY kind of material can be "Cravenette"-Processed. But the "Cravenette" Process isn't used on any kind of material.

The fabric must be fool-proof before the Cravenette Co. U. S. A. will make it weather-proof. "Weather-proof" means resistant to moisture in wet weather. A topcoat treated by the "Cravenette" Process can serve you on both clear and rainy days because this treatment does not close the pores of the cloth.

The Cravenette Co. would no more put its name on an inferior cloth than it would indorse a bad check.

It labels both the process and the product.

Gravenette Grocess, The weather-proofing process that makes a good fabric better

What Cravenette Is:

The "Cravenette" Process is a showerproofing process, applied to the best of fabrics only. It is applied to any brand or make of topcoat and certain lines only of hats, caps, boys' clothes, and umbrellas. It resists rain and thereby retains the garment's shape and reduces the need for pressing; preserves good appearance, and assures longer, satisfactory wear. The word "Cravenette" is the registered trademark name of the Cravenette Co. U. S. A. Unless garments or fabrics carry the "Cravenette" mark it is unlawful for anyone to offer them for sale as genuinely. "Cravenette"-Processed. Cravenette Company U. S. Clogged-Up? Here's Quick Aid

N EVER mind what you are using now for constipation. For all you know there is a better remedy! The next time you are clogged up try Dr. Caldwell's Syrup Pepsin, a laxative successfully used for 30 years, the largest selling liquid laxative in the world. Mrs. John A. Goins of Butlerville, Ind., constipated all her life, her stomach injured from years of pill taking, is now functioning daily since taking Syrup Pepsin; and Mr. David O'Connor of Canton, Ohio, suffering steadily for three years, got relief after a few doses. The list of successful users of Dr. Caldwell's Syrup Pepsin is naturally large as over 10 million bottles are sold annually.

Formula on Every Package

Formula on Every Package Get yourself a bottle at a drug store, the cost being less than a cent a dose. Take a spoonful at bedtime for a few nights and we guarantee that the

most chronic consti-pation will be relieved, or refund your money. A few doses in succession soon 'train the stomach muscles to act for themselves. Many, however, take it once a week and in that way keep the bowels regularly open. Dr. Caldwell's Syrup Pepsin, unlike harsh physics such as calomel, "candy cathartics," salt waters and powders, is a simple vegetable laxative composed of Egyptian senna and pepsin with tasty aromatics which are entirely harmless.

This Remedy Guaranteed

It has been accurately proven that a constipated person is only 75 per cent efficient. It slows you up; makes you dull and lazy. Take Syrup Pepsin the first day you do not have complete bowel movement. Take it, guaranteed, for constipation, torpid liver, dyspepsia, biliousness, sour stomach, headache, lack of appetite. A spoonful at the first sneeze or snifle will kill a cold overnight. Half the ailments of winter start with constipation followed by a cold. self You Want to Try It Free Before

The Hoopes & Townsend Steel Company

First (Closed) Mortgage 15-Year 7% Sinking Fund Gold Bonds

Due March 1, 1939.

tions \$1,000, \$500 and \$100. Principal and interest (March 1 and September 1), payable in gold at Guaranty
mpany, New York: Free from Normal Federal Income Tax not exceeding 2%. Tax of any State or United States
possession, not in excess of four and one-half mills will be referred to resident holders on demand.

PENNSYLVANIA COMPANY FOR INSURANCES ON LIVES AND GRANTING ANNUITIES, TRUSTEE PRICE PAR AND ACCRUED INTEREST, YIELDING 7%

In the year 1901, The Hoopes & Townsend Company erected on a tract of land East of Fort Washington, a suburb of Philadelphia, a rolling mill for the production of iron and steel bars, rods and wire. For the use of this mill a tract of 230 acres of land was acquired; the land on which this steel mill is located adjoins the town of Fort Washington. The company erected 52 homes for employees on the property and a store from which the employees buy most of their supplies, is operated near the mill.

This steel and iron rolling mill was erected in order that The Hoopes & Townsend Company — which at that time operated one of the largest bolt and nut plants in the United States — might be assured of a stable supply of raw material for its own use and might be assured of quick deliveries of this product. The capacity of this steel and iron rolling mill is estimated by The Hoopes & Townsend Company at 75,000 tons of iron or 40,000 tons of steel per year. This proved to be a greater capacity than was required for the bolt and nut works so the Company opened a steel warehouse in Philadelphia through which some of its iron and steel bars, rods and wire were distributed to local customers.

PURPOSE OF ISSUE: The proceeds of this issue, which constitutes the only funded debt of The Hoopes & Townsend Steel Company, will be used to complete the acquisition of the rolling mill at Fort Washington, together with machinery and equipment, and valuable Philadelphia property within five squares of City Hall, of the former Hoopes & Townsend Company, and the bolt and nut making machinery of that company, and to provide additional working capital.

SECURITY: This issue will be secured by a closed first mortgage on a steel and iron rolling mill with 40,000 tons annual capacity of steel bars and wire, or 25,000 tons anmortgage on a steel and iron rolling mill with 40,000 tons annual capacity of steel bars and wire, or 25,000 tons annual capacity of fron bars and rods, and 230 acres of land on which it is located, adjoining Fort Washington, a suburb of Philadelphia; a three-story brick building used as a warehouse for rolling mill and other steel products, covering a ground area of about 18,000 square feet, at Twelith and Noble Streets [less than two squares from Broad Street, and within five squares from City Hall, Philadelphia.] This property adjoins and is parallel to the Reading Railroad; and a tract of ground containing about 3,500 square feet, on Brandywine Street, within two squares of Broad Street, Philadelphia, now in use for garage, storage and other purposes; machinery and all equipment in the rolling mill and bolt and nut making machinery and equipment in The Hoopes & Townsend plant in Philadelphia, having a net depreciated sound value, land, buildings, workmen's homes and machinery as per appraisal of Lloyd-Thomas Company, Public Appraisers, of \$2,467,911.06. There will be deposited with the trustee under this bond issue certain contracts running for fifteen years for steel and iron bars, rods, and wire, made with responsible companies, which should insure the sale of the entire tonnage of the steel and iron mill of The Hoopes & Townsend Steel Company running at full capacity, at published market prices for similar products. A lesse covering bolt and nut making machinery for an annual rental of \$120,000 will be executed by a responsible corporation.

ASSETS: The Hoopes & Townsend Steel Company shows current assets of \$915,574.47 with current liabilities of only \$59,663.49, while net tangible assets after deducting all liabilities other than these bonds are \$3,351,284.58, or over \$4,400 for each \$1,000 bond of this issue. These fig-

ures give no consideration to the valuable goodwill of the predecessor Company built up over a period of 75 years under one ownership and management.

under one ownership and management.

EARNINGS: Based upon an audit of Hoope & Townsend Company's books by Messrs. Ernst & Ernst, Certified Public Accountants, dated November 10, 1923, earnings of the rolling mill at Fort Washington and the warehouse in Philadelphia, which is used as the outlet for the surplus product of the mill, for the five year period from 1916 to 1920, inclusive, available for interest, Federal Taxes, depreciation and dividends, amounted to an average of \$222,190.28, or four and one-quarter times the annual interest on this issue of bonds. These results were obtained as a result of running the mill at about 45 % capacity, and a price for a substantial portion of the product of the rolling mill \$4.00 per ton less than the prevailing quoted price of the United States Steel Corporation. During the years 1921 and 1922, due to the widespread depression in business, and especially in the steel industry, the mill and warehouse were operated at a loss of \$105,409.48. Operating profits of the mill and warehouse for the first ten months of 1923 were in excess of \$100,000, operations in 1923 being only at about one-third of the capacity of the mill. The Hoopes & Townsend Steel Company has leased for a period of fifteen years, at an annual rental of \$120,000, its bolt and nut making machinery; thus providing additional income amounting to more than twice the interest on this bond issue.

PUBLIC SCHOOLS in the United States are said to represent an investment of nearly two and one-half billion dollars—most of which has been made available through the sale of bonds. Thus is the faith of America in education indicated - on the one hand, by the willingness of its people to be taxed in the amounts necessary to meet this huge obligation, and on the other, by the readiness with which investors place their funds in the bonds which make immediate construction possible. As a result, public educational facilities in America are probably unequalled in any other country.

Wanted. Loan Department Manager

This widely known, progressive house dealing in First Mortgage Bonds and high grade mortgages needs a loan man with executive ability to take charge of its Loan Department.

The man we want may now be in second or third place in the loan department of some financial house and feel that the man higher up keeps him from climbing to the top.

Or he may be the head of such a department in an outlying bank or in a smaller house whose bond and mortgage business is not large enough to give him full scope for his ability.

The growth of our business is such that for a "go getter" opportunity is unlimited. Producers are making exceptional salaries and we rank our loan men as the most valuable in our large organization. We doubt if there is in Chicago an opportunity for a loan man comparable to this.

In your application give sufficient information to justify an interview by our President. If you hesitate to answer a blind ad get in touch with us through a friend. Then if interested disclose your identity. We appreciate the necessity of confidence and will respect yours.

working near the city limits. The li-cense figures for the first three months of 1924 show that already 24,911 horses are in use in Chicago, and this does not begin to account for the total to be issued. Thousands of contracting teams will in the next ninety days be purchased, and licensed. Any attempt to claim that no more than 24,911 will be licensed this no more than 24,911 will be licensed this year is entirely wrong. It is fust as wrong to argue that the decrease in the number of passenger automobiles from 213,440 for the year 1923 to 178,845 for the first three months of 1924 will be a permanent reduction. It is certain that before the year is over the records will show more horses in use in 1924 than in 1923. Draft horses, replaced by motor trucks for long haula, are increasing in the congested traffic areas and will continue to increase because competition between the cities is gradually forcing the development of terminal facilities, which will permit business men to load or receive freight shipments at near by terminals.

tive life of trucks and horses has often been discussed with the two sides holding divergent views.

The veterinary says the average life of the Chicago draft horse is eight years, but many are in active service after twelve years and more.

Driving horses have about disappeared; but he says that riding horses are increasing so rapidly that in a few years there may be more of them than there ever were of driving horses.

The writer has been a bit cautious about accepting the inevitable doom of the city horse ever since April, 1920. In that month the city council of Denver passed an ordinance on first reading barring all horses from the streets after five years. Next day a four foot snow fall and tied up trucks, taxis, street cars, and everything except teams. There were enough horses left to pull the town out of the drifts. The ordinance has never reached second reading.

\$5,500,000 **Hotel Sherman Company**

First Mortgage 6% Serial Bonds

Due semi-annually April 1st, 1927, to April 1st, 1930 Denominations \$1,000 all maturities, \$500 and \$100 in 1930 maturity only

(Secured by fees, leaseholds and improvements)

The company will agree to pay interest without deduction for any normal Federal income tax up to 2%

The following information is taken from official sources:

The Hotel Sherman is recognized as one of the most profitable hotels in Chicago. The present location is convenient for business, theatre and shopping districts, and has been the site of a hotel for 87

In the opinion of counsel, these bonds will be secured by a first mortgage on fees, leaseholds and improvements, consisting of the present Hotel Sherman, located at Randolph and Clark Streets, Chicago, an addition and a service building to be constructed. Upon completion of the new building, the Hotel will have a capacity of 1,580 rooms and 11 stores and will be larger than any hotel now west of New York City.

The present Hotel is located on land leased on favorable terms in 1906 for a period of 99 years. The addition will be located on land owned in fee. The Service Building will have a frontage of 70 ft. on Lake Street and will be erected on land held under two leases expiring in 2018 and 2022. The property has an additional frontage of 46.91 ft. on La Salle Street owned in fee which for the present will remain unimproved. The fees have been appraised at \$1,436,140, the leaseholds at \$1,311,957, and the building (including addition) at \$9,158,000, making a total of \$11,906,097.

This property is owned and operated by the Hotel Sherman Company which also owns and operates the Hotel Ambassador and operates under lease the Fort Dearborn Hotel. These bonds will be additionally secured by a lien on the valuable equity in the Hotel Ambassador and on the Fort Dearborn lease. Except for \$820,000 First Mortgage 6s on the Hotel Ambassador the company has no mortgage debt other than the issue now being offered.

Annual net earnings of the Hotel Sherman Company available for interest, depreciation and Federal income taxes as officially reported, averaged \$831,849 for the five-year period ending December 31, 1923. Similar net earnings for the year 1923, without allowing for any increase as a result of the expenditure of the proceeds of these bonds, were \$933,885 or approximately 2.4 times the total interest charges on all bonds outstanding including this issue. It is conservatively estimated that net earnings after completion of the new addition will be \$1,500,000 or approximately four times these interest charges.

The Chicago Title and Trust Company will issue its Mortgagee's Title Guarantee Policy in the sum of \$5,500,000, the total amount of this mortgage.

We recommend these bonds for investment and shall be pleased to send circulars describing the

The Safety Signal That Protects Your Money

STOCKS and bonds of questionable value cost the American public about \$500,000,000 a year. Yet if The Forman Eight Tests of an Investment had been observed and used by every investor much of this loss would have been avoided.

Every person who has money to invest should know and apply these eight tests to every investment. They are simple, practical, exact. They will safeguard your funds. For thirty-nine years the house of George M. Forman & Company has been buying and selling investments—without the loss of a penny to any cus-

tomer. From this extensive experience in judging investments, our ex-perts have developed these eight tests. With the aid of these tests the most inexperienced investor may select his investments confident that he is getting safety with a good yield.

No matter what class of investments you are making or have made don't let another day go by without knowing these eight tests. They will be sent you without any obligation. They have prevented loss to thousands of investors—they may save you, too, hundreds of dollars. Mail this request blank for your copy.

ON TRIAL Myrtle B. Hayes, charged with forg-ing Charles M. Schwab's name, is tried in New York. (Story on page dighters.)

AFTER THEIR ELEVATION. Cardinal Mundelein (at the left) and Cardinal Hayes are seen in St. Peter's cathedral at Rome following impressive ceremonies. They are wearing their cardinal's robes.

IN GREAT MUSICIAN'S MEMORY. Workmen are placing statue commemorating work of Theodore Thomas in Grant park, just south of the Art institute.

of St. Peter's at Rome on March 24. The pope on the throne is bestowing the msignia of a cardinal upon Archbishop Mundelein, who is kneeling, his robes flowing behind him.

AN IMPRESSIVE SCENE. This is what you would have seen had you been present when Cardinals Mundelein Hayes received their high honors. The picture is of St. Peter's cathedral in Rome. At the far end of the transcept the po is seen seated upon his throne.

DISAPPEARS. Melyin T. Wolf, whose parents at 4553 Ellis avenue, fear he is victim of foul play.

ON TRIAL FOR LIFE. Alan McCarthy was placed on trial yesterday for the murle of his chum, Roland McCarthy. Left to right: Attorney William Scott Stewart, J. J. McCarthy, father of the defendant; Attorney W. W. O'Brien, and Alan. (Story on says decorated)
